Donald E. Pieper, Sr.
15300 37th Ave. N. # A115
Plymouth, MN 55446

Good day:

I would like to block my phone from receiving unwanted fax calls.
I do not have a fax machine.

I am tired of having to wake up at during the middle of the night to
answer my phone,
Only to find out that someone is trying to send me a fax.

In today's electronic world, I believe it is possible to detect a
fax transmission.
I think my phone company should have, with my permission, the right
to block that transmission.

Thank you for your time.
